

## **Post Cross the Line Small Group Questions**

Leaders: Take a moment to let students settle. Grab a box of tissue if needed. Remember, we want students to STAY with their group, in the room, to process.

After 10-15 minutes of the first few questions, direct the conversation to "solution questions" which are the second section. Answer as many as is comfortable for your group.

Ask the following questions of each person in the group:

	Salarana and the salaran and salaran
0	What were you feeling as you crossed the line and saw others cross the line?
0	Did anything stand out to you as you crossed or watched others cross?
0	Would you be willing to tell part of your story if you are dealing with a difficult issue?
0	What have you learned today that could change the way you live?
0	What's one question you wish your parents would ask you?
0	What are ways that you like people to reach out to you?
0	If our school campus wanted to pursue a "Zero Tolerance" plan for bullying/harassment, how might we start?
0	What might you say or do for someone else who is struggling? With deep pain? With drug abuse? With unhealthy relationship?
0	Do you have any other comments or suggestions?
